

Dear FCC:

If there EVER was a reason for requiring FAIR TIME on broadcast TV during elections, it is Sinclair Broadcasting's plan to REQUIRE its stations to air an anti-Kerry program in the weeks before this election.

I would say the same if any station group required the airing of Fahrenheit 911 or something which is anti-Bush.

The PUBLIC airwaves are not the proper forum for this and it is your commission's responsibility to regulate it.

If Sinclair runs that program, they at the very least should be required to show a program offering an alternative opinion and rebuttal from Mr. Kerry (in the same length as the original program and in the same time slot, adjacent to the original program).

That's why the FAIRNESS rule was created. To be FAIR.

Media consolidation is out of control, causing a few companies to control the flow of information...and nothing is more UN-American than that.

Please act on this matter.

Thank you,

Craig Udit
